

October 26, 2026

Annie Palmer
1320 Clear Creek Dr.
Kearney, MO 64060

Ms. Palmer,

Thank you for raising your concerns regarding access to and moderation of the District's social media accounts. The District takes its First Amendment responsibilities seriously and values the ability of parents and community members to engage with the District.

The District has put a procedure in place governing the administration and moderation of its official social media accounts. Under that procedure, District social media accounts that allow public comments or interaction will be administered and moderated consistent with the First Amendment.

The District is also providing training to the employees responsible for administering or moderating its official social media accounts so that they understand and consistently follow these procedures going forward.

We appreciate you bringing your concerns to the District's attention and providing the District the opportunity to review its practices and clarify its procedures.

Sincerely,

Emily R. Miller, Ed.D.
